

MERYEM MIRGHANY

Business & Data Analyst | HR & Finance Processes | BI & Decision Reporting

📞 +212 632 592 233 ✉ mery.mirghany@gmail.com 🌐 [Portfolio](#) 📍 Casablanca, Morocco

PROFILE

MIAGE-trained engineer (EMSI), bridging information systems and business management. Currently completing a PFE internship at **Deloitte** in a dual role: **functional analysis and business process modeling** (HR, payroll, management control) and **data solution design and reporting** for senior stakeholders. Proven ability to translate complex business requirements into operational solutions and deliver decision-ready insights to non-technical audiences. Available for a full-time role from **August 2026**.

PROFESSIONAL EXPERIENCE

Deloitte

Feb. 2026 – Present

PFE Intern – Business Analysis & Data, Social Management Control

Casablanca

- Conducted **AS-IS analysis** of payroll processes: business flow mapping, gap identification, and **functional specifications** drafting for the target solution in collaboration with CDGS and HR teams
- Designed the **automated calculation engine** for bonuses, salary increases, and payroll variables: parameterizable business rules, **role-based access control** architecture on sensitive financial data
- Built and maintained **Power BI decision dashboards** (DAX, Power Query) for payroll KPI monitoring, regular reporting delivered to CDGS, HR, and senior management
- Supported business teams in tool adoption: authored user guides and provided hands-on training

Groupe Auto Hall

Jul. 2025 – Aug. 2025

Data BI Intern

Casablanca

- Analyzed business requirements (**AS-IS/TO-BE**), drafted **functional specs**, and delivered an automated **ETL pipeline** (Python/Pandas) with dimensional model and **Power BI** layer – **90% reduction** in processing time
- Managed end-to-end delivery in **Agile Scrum** on Jira: scoping, sprints, UAT, production release

Haut Commissariat au Plan (HCP)

Aug. 2024 – Sep. 2024

Data Analyst — National Census 2024

Casablanca

- Collected, structured, and validated **large-scale demographic datasets**: applied data quality rules (completeness, consistency, uniqueness) – first exposure to **data governance** at scale

TECHNICAL PROJECT

CareerMatch AI: End-to-end candidate-to-job matching platform - automated data pipeline, ML recommendation model, REST API and integrated **Power BI** decision reporting. *Python (FastAPI, scikit-learn), PostgreSQL, Power BI, Docker*

EDUCATION

Software Engineering — MIAGE track

2021 – 2026

EMSI — Moroccan School of Engineering Sciences

Casablanca

Baccalaureate in Physical Sciences — High Distinction

2020 – 2021

Groupe Scolaire Lahlou

Casablanca
